Bonnie:

Thanks for the heads-up. To date, I have no email messages or voice messages from either Rich. I will do what I can to express EPA's concerns over the matters you listed when I have more information about the issues. If TechLaw is not working out, I will need to talk with the COs to determine our options.

Thank you,

Karen Esposito

Subject: START & Dimock

Karen,

Sounds like a START issue is bubbling at Dimock. You should be getting a call from Rich F and Rich R.

Here's a couple of issues I heard --

- They have 10 bodies, 2 are leaving on Friday with no replacements lined up. Need to have continuous coverage. Samplers did not get samples sent to Fort Meade. While holding times have not been missed yet, no one let EPA know that samples were being shipped. Perhaps as many as 4 inexperienced samplers. I'm being reminded that this is very high profile. We don't have room for mistakes. Hopefully, we can get this worked through quickly.

Thanks, Bonnie
